

Coronavirus

Coronavirus can also be called 'Covid19'.

It's a new type of flu.

Symptoms of flu can include....

shiver

cough

sore throat

runny nose

sneezing

temperature

...but it's OK, you will feel better again.

The best thing I can do to stay healthy is to keep my hands clean.

wash hands

I keep my hands clean by washing my hands with soap and warm water.

wash hands

Sing

Happy Birthday

I wash my hands for at least 20 seconds, I can sing 'Happy Birthday' twice when I wash my hands, this will help me to know how long to wash for.

I should wash my hands...

before I eat

after I sneeze

after I blow my nose

after I go to the toilet

...and throughout the day.

I can also stay safe and clean by..

not biting my nails

not putting my hands in my mouth

covering mouth when coughing or sneezing

tell an adult if I feel unwell

If I need to sneeze or cough it's best to do it into a tissue then throw the tissue in the bin.

hugs

high fives

hand shakes

fist bumps

It's a good idea to not give my friends hugs, high fives, hand shakes or fist bumps until everyone is feeling better.

unwell

home

If I feel unwell I
will need to stay at
home.

school

My school might
close and all the
children will stay at
home.

I can ask my parents
or carers if there is
school or not.

Having time off school is a change to my routine and it can feel tricky.

learning

home

I can do my
learning from
home.

My parents or carers
will let me know
when I can go
back to school.

goodbye

virus

Just like other types
of flu, Coronavirus
will go away soon.

worried

talk

Everything will be OK,
but if I feel worried I
can talk to an adult
about it.
